FCC Form 481

Section 500 - Service Quality Standards & Consumer Protection Rules Compliance

Under FCC Rules, Section 54.202, an ETC must comply that it will satisfy applicable consumer protection and service quality standards. Telrite Corporation d/b/a Life Wireless (Telrite) is in compliance with the Cellular Telecommunications and Internet Association's Consumer Code for Wireless Service.

- Telrite discloses rates and terms of service to customers at the time service is initiated.
 These same terms and conditions are posted on Telrite's website at
 www.lifewireless.com.
- 2. Telrite provides service availability information on their website at www.lifewireless.com.
- Telrite provides contract terms to subscribers when they initiate or change service. These
 same terms are provided to subscribers during the annual recertification process as
 outlined in Commission rules that govern continued subscriber eligibility.
- 4. Telrite's Lifeline service can be terminated at any time by either party without an early termination fee. Service is dependent on continued eligibility in the program.
- Telrite provides disclosures, minutes included in Lifeline plans, expiration of rollover minutes, availability of service, and cost for additional minutes in all published Lifeline advertising materials.
- Telrite customers are provided options if they exceed the number of minutes provided in their Lifeline plan. If at any time a customer purchases additional minutes, charges and plan options are available on the company website at www.lifewireless.com.
- 7. Telrite's toll-free customer service number is 888-543-3620. Customers can also contact Telrite via email at info@lifewireless.com. This information is provided in the terms of service and on the company website and in all information provided to subscribers.
- 8. Telrite responds to all consumer inquiries and complaints received from government agencies within 30 days.
- 9. Telrite has procedures in place to maintain the privacy of subscriber proprietary information in accordance with applicable federal and state laws.
- 10. At service initiation, Telrite requests that subscribers "Opt In" to receive free notifications regarding activation status, balance alerts, etc. Customers can also decline to receive these messages and notices by "Opting Out". If a subscriber chooses to decline free notifications they will receive only those Lifeline notifications required by the FCC such as the 30-day non-usage notice, the recertification notices, etc. The customer cannot opt out of the required FCC notifications.

FCC Form 481 Section 600 - Functionality in Emergency Situations

Under FCC Rules, an ETC must demonstrate its ability to remain functional in emergency situations. Since Telrite Corporation d/b/a Life Wireless (Telrite) is providing service to its customers through the use of facilities obtained from other carriers, it is able to provide to its customers the same ability to remain functional in emergency situations as currently provided by the carriers to their own customers, including access to a reasonable amount of back-up power to ensure functionality without an external power source, re-routing traffic around damaged facilities, and the capability of managing traffic spikes resulting from emergency situations.

Telrite, along with their underlying carriers, have created back-up systems to ensure functionality in the event of a loss of power or network functionality. Telrite maintains its own diesel-powered backup generator at their switching facility in Georgia. All systems within the facility are implemented on redundant servers, each with redundant data network and power.

Telrite Corporation d|b|a Life Wireless does not have facilities in any state other than Georgia. It relies on the facilities of the underlying carrier in each state it provides service to demonstrate its own ability to function in emergency situations.

When a number is identified by a 911 dispatch center as belonging to an underlying carrier, the officer would call the underlying carrier who can assist with tracing the distressed caller or other network information. In the event further customer proprietary network information (CPNI) is needed to reach the distressed 911 caller, the underlying carrier would then direct the officer to contact the reseller, Life Wireless. All underlying carriers that Telrite utilizies have the contact number on file for Telrite d|b|a Life Wireless' customer service department.

When customer service receives a call from a 911 dispatch center, the call will be forwarded to a supervisor. The supervisor will require proof of identity generally by fax or email. After the officer and request is verified as an emergency situation, the information is released immediately. If the "officer" cannot be identified, a subpoena or court order is required.
